**AVAILABLE OPTIONS:**

- Available with suspension and skis, or as a sleigh model, with 2" polyethylene runners
- ATV Conversion Kit
- Body colors available: Black or Blue
- Canopy/Bench colors available: Red or Orange
- Aluminum stretcher (shown below)
- Back boards
- Plastic ski skins
- Composite skis
- Canvas cover (shown below)

The most advanced, remote-rescue unit available to the ATV market today. The ATV Rescue unit has a roto-moulded body, making this unit strong, lightweight and easily towed. The front canopy and bench seat are easily removed for full access.

The Rescue unit's superior suspension, seat belts, and an optional polyethylene backboard (or an aluminum stretcher with adjustable backrest) will provide a high level of patient security and comfort.

The ATV Rescue has the option of converting into a ski or sleigh rescue unit for pulling behind a snowmobile, allowing for year-round use.

Also available from Equinox are backboards, stretchers, and fitted canvas covers.

**SPECIFICATIONS:**
